DETAILED ACTION

Allowable Subject Matter

1. Claims 2 – 6 have been allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art of record neither discloses nor fairly teaches the claimed combination including: a primer having an ignition element and a coil, the ignition element and the coil being situated on a common, flat support material, the entire support material consisting of combustible or consumable materials, and a three-dimensional cylindrical coil being produced by providing conductive tracks on the support material, rolling the support material to form a cylinder, and laying opposed conductor ends of the coil one on top of another and making contact between them.
3. This statement is not intended to necessarily state all the reasons for allowance or all the details why the claims are allowed and has not been written to specifically or impliedly state that all the reasons for allowance are set forth (MPEP 1302.14).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
